

IN THE SPECIFICATION

[0110] The outwardly facing surfaces 12 and 32 respectively of the first and second baseplates 10, 30 may include a groove 13 as shown in FIG. 1B and 1E. The convex mesh 14, 34 may have a perimeter portion which is disposed within said groove so as to help secure the convex metal mesh 14, 34 to the outer surfaces 12 and 32 of the respective base plates. The groove may be on one or both of the outwardly facing surfaces.
